EXPERIENCE

Sunsong North America, Inc. & Harco Manufacturing Group, LLC

Dayton, OH

Information Technology Administrator I

Sep 2025 – Present

- Provide IT support for 60+ users, resolving hardware, software, and network issues across production and office environments.
- Set up new systems, create and manage Active Directory and Office 365 user accounts, and ensure smooth onboarding for employees
- Maintain and troubleshoot servers, printers (Zebra and standard), scanners, and Microsoft Dynamics AX ERP issues.
- Monitor and support EDI communications through platforms such as OpenText and Covisint, ensuring accurate and reliable data exchange with customers.
- Assist the Network Administrator with cabling, system upgrades, and overall infrastructure maintenance.

University of Dayton Center for Student Involvement

Dayton, OH

Kennedy Union Operations Manager

Jul 2023 – Aug 2025

- Promoted to Manager; led a 6-member team, improving efficiency by 30% and reducing setup errors.
- Delivered AV/IT support (Crestron, audio, and event systems), independently resolving 90% of issues.
- Managed and coordinated event operations to ensure smooth execution, clear communication, and quick resolution.
- Supported high-pressure events while maintaining customer satisfaction.

PROJECTS

Self – Hosted Pi Server

System & DevOps Engineer | Summer 2024 - Present

- Built and maintained a Raspberry Pi home lab hosting a personal portfolio, secure forum, and other services.
- Deployed reverse proxy with Caddy + Cloudflare for secure public access.
- Implemented automated backup and monitoring for reliability.

MonoText Web App

Full Stack Developer | Summer 2025

- Built and deployed a secure social networking app with PHP, MySQL, HTML/CSS, and JavaScript.
- Implemented user registration/login, profile management, posting, commenting, and real-time chat.
- Implemented authentication, role-based access, and defenses against XSS, CSRF, and SQL Injection.

Movie Recommendation Web App

Team of 4 — Full-Stack Developer (Frontend + API integration) | Spring 2025

- Built a movie recommendation app with JavaScript, jQuery, Bootstrap, HTML/CSS, and TMDB API.
- Designed interactive UI (search, posters with trailers, cast/provider info).
- Integrated Azure-hosted Python/ML API for real-time recommendations.
- Used AJAX + responsive design for smooth dynamic content.

Cloud Web POS System

Team of 4 — Back-End Developer | Fall 2024

- Developed POS system with Neo4j + RESTful APIs.
- Designed backend for order processing, inventory, and transactions.
- Led backend testing/debugging to ensure stability and scalability.
- Managed deployment workflows with frontend team for full integration.
- Collaborated in sprints using GitHub, following Agile/Scrum workflows.
